

Department of Computer Technology

Vision Statement of the Department.

To be a preferred hub for nurturing computer engineering aspirants through innovative, ethical, value-based technical education, impactful research, and industry collaboration, to become successful professionals contributing for the betterment of society.

Mission Statement of the Department.

To nurture computer engineering professionals by offering Dynamic learning environment that encourages problem-solving using emerging technology, National Education Policy aligned evidence-based technical education, fostering innovation, research, and industry-institute collaboration & Holistic, ethical and sustainable development for lifelong success.

Session 2026-2027

Vision: Dream of where you want.**Mission:** Means to achieve Vision

Program Educational Objectives of the program (PEO): (broad statements that describe the professional and career accomplishments)

PEO1	Preparation	P: Preparation	Pep-CL abbreviation pronounce as Pep-si-IL easy to recall
PEO2	Core Competence	E: Environment (Learning Environment)	
PEO3	Breadth	P: Professionalism	
PEO4	Professionalism	C: Core Competence	
PEO5	Learning Environment	L: Breadth (Learning in diverse areas)	

Program Outcomes (PO): (statements that describe what a student should be able to do and know by the end of a program)

Keywords of POs:

Engineering knowledge, Problem analysis, Design/development of solutions, Conduct Investigations of Complex Problems, Engineering Tool Usage, The Engineer and The World, Ethics, Individual and Collaborative Team work, Communication, Project Management and Finance, Life-Long Learning

PSO Keywords: Cutting edge technologies, Research

“I am an engineer, and I know how to apply engineering knowledge to investigate, analyse and design solutions to complex problems using tools for entire world following all ethics in a collaborative way with proper management skills throughout my life.” to contribute to the development of cutting-edge technologies and Research.

Integrity: I will adhere to the Laboratory Code of Conduct and ethics in its entirety.

Name and Signature of Student and Date

Department of Computer Technology

Vision Statement of the Department.

To be a preferred hub for nurturing computer engineering aspirants through innovative, ethical, value-based technical education, impactful research, and industry collaboration, to become successful professionals contributing for the betterment of society.

Mission Statement of the Department.

To nurture computer engineering professionals by offering Dynamic learning environment that encourages problem-solving using emerging technology, National Education Policy aligned evidence-based technical education, fostering innovation, research, and industry-institute collaboration & Holistic, ethical and sustainable development for lifelong success.

Session	2024-25 (ODD)	Course Name	Web Technology Lab
Semester	3	Course Code	23CT1301
Roll No	22	Name of Student	Sanskruiti Kharapkar

Practical Number	
Course Outcome	1. Understand various internet technologies. 2. Design the web pages using HTML and CSS. 3. Implement the XML technology to store the data. 4. Develop the interactive web pages using JavaScript.
Aim	Introduction to Javascript (loop,conditional statements) and form Validation.
Problem Definition	Build a registration form (name,email,password,phone no.) and write a javascript to validate all the fields on submit,displaying inline error messages.
Theory (100 words)	JavaScript is a scripting language used to make web pages interactive and dynamic. It can be used to perform calculations, handle user actions, validate forms, and change webpage content.
Procedure and Execution (100 Words)	Step for Implementation: ● Create an HTML registration form. ● Add input fields for Name, Email, Password and Phone Number. ● Create a CSS file to style the form. ● Create a JavaScript file for validation. ● Add onsubmit="return validateForm()" to the form. ● Read the values entered by the user using JavaScript. ● Check each field using conditional statements. ● Display error messages inline below the respective fields. ● If all fields are valid, display a success message. ● Submit the form only when all validations are successful.

Department of Computer Technology

Vision Statement of the Department.

To be a preferred hub for nurturing computer engineering aspirants through innovative, ethical, value-based technical education, impactful research, and industry collaboration, to become successful professionals contributing for the betterment of society.

Mission Statement of the Department.

To nurture computer engineering professionals by offering Dynamic learning environment that encourages problem-solving using emerging technology, National Education Policy aligned evidence-based technical education, fostering innovation, research, and industry-institute collaboration & Holistic, ethical and sustainable development for lifelong success.

Code:

```
<!-- JavaScript Validation -->
<script>

    document.getElementById("studentForm").onsubmit = function() {

        var name = document.getElementById("name").value;
        var email = document.getElementById("email").value;
        var phone = document.getElementById("phone").value;
        var gender = document.getElementById("gender").value;
        var course = document.getElementById("course").value;
        var address = document.getElementById("address").value;

        if (name == "" || email == "" || phone == "" ||
            gender == "" || course == "" || address == "") {

            alert("Please fill all the fields!");
            return false;
        }

        if (phone.length != 10) {
            alert("Please enter a valid 10-digit phone number!");
            return false;
        }

        alert("Registration Successful!");

        return false;
    };

</script>

</body>
</html>
```

Output:

127.0.0.1:5500 says
Registration Successful!

Mission Statement of the Department.

To nurture computer engineering professionals by offering Dynamic learning environment that encourages problem-solving using emerging technology, National Education Policy aligned evidence-based technical education, fostering innovation, research, and industry-institute collaboration & Holistic, ethical and sustainable development for lifelong success.

Output Analysis	The program successfully creates a registration form using HTML and CSS. JavaScript is used to validate the entered information when the form is submitted. Conditional statements such as <code>if</code> and <code>else if</code> are used to check different conditions. Regular expressions are used for email and phone-number validation. Error messages are displayed directly below the corresponding input fields.
Link of student Github profile where lab assignment has been uploaded	Sanskriti2007-code/web-Technology-Practicals
Conclusion	Thus, a simple registration form was successfully created using HTML, CSS and JavaScript. JavaScript conditional statements and form validation were implemented using the <code>onsubmit()</code> event. The program validates user input and displays appropriate inline error messages.
