

Department of Computer Technology

Vision Statement of the Department.

To be a preferred hub for nurturing computer engineering aspirants through innovative, ethical, value-based technical education, impactful research, and industry collaboration, to become successful professionals contributing for the betterment of society.

Mission Statement of the Department.

To nurture computer engineering professionals by offering Dynamic learning environment that encourages problem-solving using emerging technology, National Education Policy aligned evidence-based technical education, fostering innovation, research, and industry-institute collaboration & Holistic, ethical and sustainable development for lifelong success.

Session 2026-2027

Vision: Dream of where you want.**Mission:** Means to achieve Vision

Program Educational Objectives of the program (PEO): (broad statements that describe the professional and career accomplishments)

PEO1	Preparation	P: Preparation	Pep-CL abbreviation pronounce as Pep-si-IL easy to recall
PEO2	Core Competence	E: Environment (Learning Environment)	
PEO3	Breadth	P: Professionalism	
PEO4	Professionalism	C: Core Competence	
PEO5	Learning Environment	L: Breadth (Learning in diverse areas)	

Program Outcomes (PO): (statements that describe what a student should be able to do and know by the end of a program)

Keywords of POs:

Engineering knowledge, Problem analysis, Design/development of solutions, Conduct Investigations of Complex Problems, Engineering Tool Usage, The Engineer and The World, Ethics, Individual and Collaborative Team work, Communication, Project Management and Finance, Life-Long Learning

PSO Keywords: Cutting edge technologies, Research

“I am an engineer, and I know how to apply engineering knowledge to investigate, analyse and design solutions to complex problems using tools for entire world following all ethics in a collaborative way with proper management skills throughout my life.” to contribute to the development of cutting-edge technologies and Research.

Integrity: I will adhere to the Laboratory Code of Conduct and ethics in its entirety.

Name and Signature of Student and Date
(Signature and Date in Handwritten)

Department of Computer Technology

Vision Statement of the Department.

To be a preferred hub for nurturing computer engineering aspirants through innovative, ethical, value-based technical education, impactful research, and industry collaboration, to become successful professionals contributing for the betterment of society.

Mission Statement of the Department.

To nurture computer engineering professionals by offering Dynamic learning environment that encourages problem-solving using emerging technology, National Education Policy aligned evidence-based technical education, fostering innovation, research, and industry-institute collaboration & Holistic, ethical and sustainable development for lifelong success.

Session	2025-26 (ODD)	Course Name	Web Technology Lab
Semester	3	Course Code	23CT1301
Roll No	22	Name of Student	Sanskriti . P . Kharapkar

Practical Number	2
Course Outcome	1. Understand various internet technologies. 2. Design the web pages using HTML and CSS. 3. Implement the XML technology to store the data. 4. Develop the interactive web pages using JavaScript.
Aim	To create a student registration form using HTML tags.)
Problem Definition	The aim of this Practical is to create a simple Student Registration Form using HTML tags. The form will allow a student to enter basic information such as name, email, password, gender, course, date of birth and address.
Theory (100 words)	HTML provides different tags for creating forms. The <form> tag is used as the main container of a form. The <input> tag is used to take different types of user input such as text, email, password, radio buttons and date. The <select> and <option> tags are used to create a dropdown list. The <textarea> tag is used when the user needs to enter larger text such as an address.

Department of Computer Technology

Vision Statement of the Department.

To be a preferred hub for nurturing computer engineering aspirants through innovative, ethical, value-based technical education, impactful research, and industry collaboration, to become successful professionals contributing for the betterment of society.

Mission Statement of the Department.

To nurture computer engineering professionals by offering Dynamic learning environment that encourages problem-solving using emerging technology, National Education Policy aligned evidence-based technical education, fostering innovation, research, and industry-institute collaboration & Holistic, ethical and sustainable development for lifelong success.

Procedure and Execution

(100 Words)

Step for Implementation:

1. Open VS Code or Notepad.
2. Create a new file and save it as **student_registration.html**.
3. Create the basic HTML structure using **<html>**, **<head>** and **<body>**.
4. Add a heading for the Student Registration Form.
5. Create input fields for student name, email and password.
6. Add radio buttons for selecting gender.
7. Add a date input for date of birth.
8. Create a dropdown menu for selecting the course.
9. Add a textarea for entering the address.
10. Add Submit and Reset buttons.
11. Save the file.
12. Open the HTML file in a web browser and check the form.

Code:

```
<!DOCTYPE html>
<html>
<head>
<title>Student Registration Form</title>
</head>
<body>
<h1 align="center">Student Registration Form</h1>
<form>
First Name:
<input type="text"><br>
Last Name:
<input type="text"><br>
Date of Birth:
<input type="date"><br>
Gender:
<input type="radio" name="g">Male
<input type="radio" name="g">Female
<input type="radio" name="g">Other
<br>
Email:
<input type="email"><br>
Mobile:
<input type="tel"><br>
Address:<br>
<textarea rows="4" cols="38"></textarea><br>
Course:
<select>
<option>BCA</option>
<option>B.Sc</option>
<option>B.Com</option>
<option>B.Tech</option>
<option>BA</option>
</select><br>
Hobbies:
<input type="checkbox">Reading
<input type="checkbox">Sports
<input type="checkbox">Music
<input type="checkbox">Dancing
<br>
Password:
<input type="password"><br>
<input type="submit" value="Register">
<input type="reset" value="Clear">
</form>
</body>
</html>
```

Department of Computer Technology

Vision Statement of the Department.

To be a preferred hub for nurturing computer engineering aspirants through innovative, ethical, value-based technical education, impactful research, and industry collaboration, to become successful professionals contributing for the betterment of society.

Mission Statement of the Department.

To nurture computer engineering professionals by offering Dynamic learning environment that encourages problem-solving using emerging technology, National Education Policy aligned evidence-based technical education, fostering innovation, research, and industry-institute collaboration & Holistic, ethical and sustainable development for lifelong success.

	Output: Student Registration Form First Name: Last Name: Date of Birth: dd-mm-yyyy Gender: ☐ Male ☐ Female ☐ Other Email: Mobile: Address: Course: BCA Hobbies: ☐ Reading ☐ Sports ☐ Music ☐ Dancing Password: Register Clear
Output Analysis	The Student Registration Form was created successfully using HTML form tags. Different types of input fields were used according to the type of information required. Radio buttons were used for gender selection, a dropdown was used for selecting the course, and a textarea was provided for the address. The Register button is used to submit the form, while the Clear button removes the entered values.
Link of student Github profile where lab assignment has been uploaded	<u>Sanskriti2007-code/Web-Technology</u>
Conclusion	Thus, a simple Student Registration Form was successfully created using HTML. This Practical helped in understanding the use of different HTML form elements and how they are arranged to collect information from users.
